

The Natural Solution

Spud was founded on the principal of doing a high quality job with natural materials to make affordable products that will last the test of time.

Spud uses natural wood that is untreated and hasn't been exposed to toxic chemicals. We strive to only use materials that are safe for you and your families.

We want everyone to be able to experience the joy of natural, quality wood products. This is why we strive to keep our prices down without sacrificing quality or the integrity of our products. You won't find particle board or cheap plastic parts in our products; everything is made by Spud Woodworks here in the USA.

YOUR SOURCE FOR ALL NATURAL
WOODEN TOYS, BLOCKS AND MORE!

Spud's Mission

Our mission is to provide natural wood products that serve as an alternative to plastics and other materials (that can contain lead, toxins and other chemicals that are detrimental to the environment and health) while lowering the cost of doing so.

A Bit About Me

My name is Ethan Harris, I am a husband, a father and a woodworker. I started my small business in 2012 in hopes to begin what could be a future in woodworking for myself. I enjoy woodworking and I have a passion for creating safe, natural and economically friendly products.

With the right determination and reliance on my Lord and Savior, I know that I can reach my goals and continue on enjoying the wonderful experience that is woodworking.

Regards,

SPUD  **WOODWORKS**
